PARFUM DE

## Réf: A05543 10g KING Cockroaches gel syringe

KING Cockroaches gel is a bait insecticide. When cockroaches ingest it, all disappear in one week.

Its effect will spread to the colony when infected cockroaches come back to the nest, increasing the exterminating power of this gel.

1 drop eradicates 50 cockroaches, 1 syringe equals to 300 drops.

### INSTRUCTIONS FOR USE

1. Takes off the cap by applying a 90 degrees pressure.
2. Applies drops of 0,03 gr (diameter of ~3 mm) in infested areas. Put drops proportionally to the infestation.
3. Put the cap back on for a later application. Use the product within 6 months after opening. Makes a second application 3 months after.

Applies the drops at places difficult to access (slots, corners, cracks), in wet commodities (under sinks, washbasin), waypoints (pipes, skirting boards), behind kitchen cupboards, around the bin, behind fridge, dishwasher, bathroom cupboards, WC, etc.

### PACKAGING

Syringe of 10 g  
Box of 12 syringes  
Pallet: 2304 units – 192 boxes

### PRECAUTION FOR USE

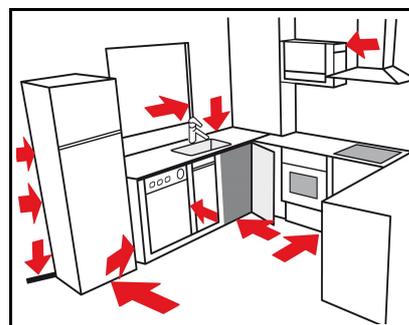

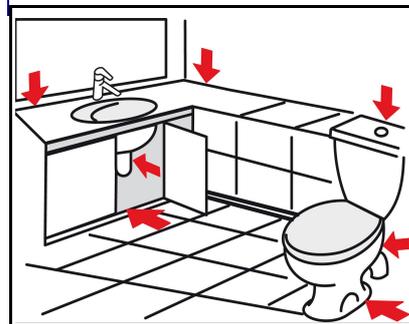

Use biocides with caution. Before each use, read carefully label and instructions concerning the product.

### LEGISLATION

Read the Safety data sheet (SDS), available on demand.
