Ref: A08040 TYRE REPAIR 300ML KING

Ideal and very convenient in unexpected moments.

Liquid useful to plug tires with or without inner tube.

For temporary repairs of punctures.

INSTRUCTIONS FOR USE

Remove the object responsible for the puncture. Shake the aerosol strongly and in cold weather, warm it for a few minutes in the hands. With the inflation valve in the "noon" position, screw the fitting onto the valve. Hold the aerosol in the upright position and press the push button until it is completely drained (about 1 minute). Immediately drive at least 5 km at moderate speed to spread the clogging product. Control the pressure again. Check it 8 to 10 hours afterwards.
