

DIESEL INJECTOR TREATMENT

A16733 - 250CC

Protects, cleans and lubricates the pump and injectors.

- Allows better spraying
- Protects against oxidation
- Ensures optimal engine performance

● Application:

Treatment for diesel injector.

Protects, cleans and lubricates the pump and injectors.

Restores the original shape of the jets and thus guarantees better spraying.

Allows you to obtain a stable idle, avoids jerks when accelerating and facilitates cold starting.

Protects from oxidation.

Eliminates condensation water and heavy smoke.

Ensures optimal engine performance.

TECHNICAL DATA:

Odor: Hydrocarbon / Appearance: Blue liquid / Density: 0.81 +/- 0.02

● Directions for use:

A dose of 250mL treats up to 70L of fuel

At the station, pour the contents of the bottle into the fuel tank before refueling.

Repeat the operation every 4000 km in the event of severe contamination or before passing the vehicle for technical inspection.

● Areas of use:

- Automotive, heavy goods vehicles, pumps and injectors
- Garages
- Vehicle rentals
- All industries requiring vehicles
- Help in bringing vehicles into compliance with new anti-pollution standards (technical inspection and highway code)

● Packaging:

250CC aluminum case with extension cannula

Aluminum case diameter 50 mm/height 190 mm

Net volume at 20°C: 250cc

Sales unit: Box of 12 units

Palettization: 1764 units / 147 boxes

● Legislation:

GENERAL PUBLIC AND PROFESSIONAL USE

Dangerous. Highly flammable liquid and vapor. Respect the precautions for use. Consult the safety data sheet (SDS), available on request.

Our technical data sheets have been produced based on our current knowledge; certain elements are subject to change.
