

COCKROACH GEL

A05543 - 10G

Used to treat cockroach and cockroach infestations.

- 1 syringe = 15,000 insects treated
- Neutralizes the colony
- Treats all spaces

● Application:

KING cockroach gel is an insecticide bait, when cockroaches and cockroaches have ingested it, they will disappear within a week.

Its effect extends to the colony because infected cockroaches and cockroaches do not die instantly but transport the active ingredient to the nest, which multiplies its exterminating power.

1 drop eliminates 50 cockroaches, 1 syringe is equivalent to 300 drops.

● Directions for use:

1. Remove the cap by applying pressure of 90 degrees.
2. Apply drops of 0.03 g (diameter of approximately 3 mm) to the infected areas.

Dispose a number of drops proportional to the invasion.

3. Replace the cap for later application.

Once opened, use the product before 6 months.

Reapply after 3 months.

Apply the drops in inaccessible places (slots, grooves, corners, cracks), in humid environments (under sinks, washbasins), places of passage (pipes, plinth), behind kitchen cupboards, near the trash can, behind refrigerators, dishwashers, furniture bathrooms, toilets, etc.

● Areas of use:

- Cleaning companies
- Communities
- Disinfestation professionals
- Hotels, campsites
- Leisure centers

● Packaging:

10g syringe.

Sales unit: Box of 12 units

Palettization: 2304 units / 192 boxes

● Legislation:
