

REPAIRS AND INFLATS CANNULA TIRE

A08040 - 300ML

Repairs and reinflates flat tires.

- Practical
- Without tools or wheel removal
- Does not alter the quality of the tire

● Application:

Ideal and very practical in unforeseen moments.
Liquid to seal tires with or without tubes.
Instantly repairs and re-inflates inner tubes without tools or removing the wheel.
For temporary repairs of punctures without altering the quality of the tire.

TECHNICAL DATA:

pH: 11 +/-0.5 / Density: 1.02 +/-0.02 / Appearance: White foaming liquid / Odor: Ammoniated

● Directions for use:

Remove the object responsible for the puncture.
Shake the aerosol vigorously and in cold weather, warm it in your hands for a few minutes.
With the inflation valve in the "noon" position, screw the connector onto the valve.
Hold the aerosol in a vertical position with its head upwards.
Press the push button until it is completely empty (approximately 1 minute).
Drive immediately for at least 5 km at moderate speed. so that the sealant spreads.
Reapply the pressure. Check it 8 to 10 hours later.
