

TECHNICAL SHEET

Cosmetic and paramedical

HYDROALCOHOLIC GEL

A19345 - 5L

Hygienic and surgical hand disinfection by friction.

- Unscented and dye-free
- Requires no rinsing or drying of hands

STANDARDS

Bactericidal in compliance with EN 13727

Hygienic handrub in compliance with EN 1500

Surgical handrub in compliance with EN 12791

Fungicidal in compliance with EN 13624

Limited spectrum virucidal in compliance with EN 14476:2015

Additional viruses in compliance with EN 14476:2015

Additional viruses in compliance with EN 14476 + A2

Mycobactericidal in compliance with EN 14348

STRAINS

Staphylococcus aureus, *Pseudomonas aeruginosa*,
Escherichia coli, *Enterococcus hirae*

Candida Albicans and *Aspergillus brasiliensis*

Murine norovirus, *adenovirus* (in 30 seconds) and *vaccinia virus*
(in 2 minutes)

H1N1 (influenza A)

Rotavirus

Mycobacterium avium complex and *mycobacterium terrae* (= *tuberculocidal activity*)

CONDITIONS

In 30 seconds

3 mL in 30 seconds

2 x 3 mL in 2 x 30 seconds

In 30 seconds

In 30 seconds
and 2 minutes

In 30 seconds

In 30 seconds

In 5 minutes

Application:

Hydroalcoholic gel for external use, intended for rapid disinfection of hands.

Use on clean, dry hands. Does not require rinsing or drying of hands. Non-irritating by contact with the skin. Recommended in the medical field (hospitals, medical establishments, dental care centers, infirmaries of schools, kindergartens and nurseries) or the veterinary field (veterinary practice and clinic).

Effective on enveloped viruses such as Coronavirus and its variants, H1N1 etc.

TECHNICAL DATA:

Appearance: Clear colorless gel

Odor: Alcohol

pH: 6 +/- 0.5

Viscosity 20°C: 1500+/-200cPo

Directions for use:

Hygienic friction: 3mL in the hand and rub until total evaporation (minimum 30 seconds).

Surgical friction: 2x3mL in 2x30 seconds, i.e. 3 mL (refer to the packaging on page 2) in the hand and rub until total evaporation (minimum 30 seconds).

Then repeat the operation.

Step 1: Palm to palm.

Step 2 : Palm of the right hand on the back of the left hand and palm of the left hand on the back of the right hand.

Step 3: Palm to palm with fingers interlocked.

Step 4: Back of fingers against the opposite palm with fingers interlocked.

Step 5: Rotational friction of the thumb embedded in the left palm and vice versa.

Step 6: Rotational friction moving back and forth with the fingers joints of the right hand into the left palm and vice versa.

At the end of step 6, repeat the succession of the same steps appropriately until the specified washing time is completed.

Areas of use:

- Hospitals
- Retirement homes, EHPAD
- Maternity homes, nurseries and schools
- Campsites
- Accommodation, hotels

Packaging:

5L can

Sales unit: Box of 2 units

Palettization: 160 units / 80 boxes

Legislation:

PROFESSIONAL USE ONLY

Biocide category: TP1, Human hygiene. Dangerous. Respect the precautions for use. Use biocides with caution. Before use, read the label and product information. Consult the safety data sheet (SDS), available on request. Our technical data sheets have been produced based on our current knowledge; certain elements are subject to change.
