

Ref. A18241 ANTI-DUST MITE ANTI-LICE 500ML KING DERM'ALPES

For treating infestations of dust mites and other insects.

- ✓ **Treats up to 30m²**
- ✓ **Protection for up to 6 months**
- ✓ **Effective on insects at all stages of their development**

APPLICATION

Very effective dust mite treatment Effective on insects: fleas, lice, itch mites and bed bugs, at all stages of their development: larvae, nymphs and adults.

Protection for up to 6 months

Professional product for schools, hospitals, hotels, self-catering, temporary accommodation, public venues, etc.

Use to treat bedding, clothing and fabric, carpet, wood flooring etc.

In addition to dust-mite allergy treatment for asthma, to rhinitis, conjunctivitis and lice infestations to prevent frequent recontamination by humans via clothing and bedding.

Spray directly: 1 spray for 3 seconds is sufficient.
Surface treatment: 1 aerosol can covers approx. 30m².

RECOMMENDED FOR:

- Cleaning companies
- Local authorities
- Insect-control companies
- Hotels and camping grounds
- Recreational centres

INSTRUCTIONS FOR USE

Shake well before use. Spray on the surface from 30cm. Let surfaces dry for at least 1 hour then air the room for at least 10 minutes.

For treating lice, fleas and other household insects: Treat fabric, carpet, wood flooring, etc. and anywhere pests pass or nest. Leave to dry.

Vacuum to remove dead pests.

For treating dust mites (including itch mites) and bed bugs:

Treat bedding, preferably in the morning. Apply product to uncovered mattress and pillows, bed frame and leave to dry completely. Vacuum to remove all allergens then make bed with clean sheets and pillow cases (machine washed >60°).

People suffering from asthma should leave the room to avoid respiratory irritation. Protect cold-blooded animals: cover cages, terrariums, aquariums and disconnect pump from power. First test on very white fabric.
