

Ref.: A19128 STOP RUST 500ML PUCK

For greasing metal parts and preventing dryness

- ✓ **Multi-position valve**
- ✓ **High-performance coverage and penetration**
- ✓ **UV-resistant and oxidation-proof**
- ✓ **Colorless**

SPECIFICATIONS

Formula: resin based

Properties: UV-resistant, damp-proof, antioxidant

APPLICATION

Colorless rust-proof coating with shiny finish.

This resin-based product penetrates rust and prevents it spreading. High-performance coverage and penetration

Protects metal, iron, steel and sheet metal against oxidation and corrosion. UV-resistant, damp-proof and antioxidant

For use on oxidized and very oxidized surfaces Can also be used as primer.

For indoor and outdoor protection: iron, steel, galvanized sheet metal such as frames, structures, roofing, signage, etc.

For application on rails, guardrails, welding beads, galvanized metal parts, metal constructions, nuts and bolts, taps, welded joints.

RECOMMENDED FOR

- Metal construction
- Assembly lines
- Taps, bolting, welded joints
- Metal industry

INSTRUCTIONS FOR USE

Shake well before use.

Brush, descale and degrease the areas to be treated. Spray 10 to 15 cm from the surface. Apply at least 2 coats for optimal protection.

The treated surface is touch-dry within several minutes.

Complete drying time: 30 minutes to 1 hour (between 2 coats)

PACKAGING

Packaging unit: Aerosol 500ml

Pack size: Box of 12 units

Tin can Diameter: 65mm/Height: 195mm

Nominal volume: 650ml /Volume Net 500ml

Pallet size: 1080 units – 90 boxes

REGULATIONS

FOR INDIVIDUAL AND PROFESSIONAL USE

Dangerous. Follow precautions for use.

Refer to the safety data sheet (SDS). Available on request.
