

FUMIGATING INSECTICIDE

Ref. A25399 - 11gr

QUICK
TECH

INSECTICIDE

Fumigating insecticide against flying and crawling insects.

- **One-shot**
- **Residual action**

APPLICATION

Effective against: houseflies, mosquitoes, wasps, moths, fleas, ants, cockroaches and stored-product insects, including grain weevils and beetles.
Do not use on cereals or in empty grain storage facilities.

Technical data

Coverage:

1 canister treats 400 m³ against flying insects,
100 m³ against fleas, and
25 m³ against ants and cockroaches.

INSTRUCTIONS

For best results, carry out fumigation in the late afternoon and leave the house or building empty for at least 2 hours.

Determine the number of fumigators required depending on the infestation and the area to be treated.

Place the fumigator(s) evenly throughout the room on a heat-resistant surface, away from windows, doors, furniture and cupboards.

Before use, close doors and windows and switch off ventilation systems in the room.

Open the fumigator(s) and place the lid on the product.

Light the fuse of the generator furthest from the exit first, then light the next fumigator while moving toward the exit.

Leave the room and close the door.

Leave to act for at least 2 hours, preferably overnight.

Ventilate thoroughly before re-entering permanently.

In case of severe infestations, fumigate 3 times at 5- to 7-day intervals.

Plastic deformation may occur.

AREAS OF USE

- Public authorities
- Hospitals
- Technical rooms
- Attics, cellars

PACKAGING

Packaging unit (PU):
1 g recyclable plastic container

Sales unit (SU):
Box of 20 units

Palletisation:
5,440 units – 272 cartons

REGULATIONS

FOR PROFESSIONAL USE ONLY.

TPI8. Before use, ensure that it is necessary, particularly in frequently visited areas and for the general public. Whenever possible, favour alternative methods and products presenting the lowest risk to human health, animal health and the environment. Use biocides with caution. Before use, read the label and product information carefully. Follow precautions for use.

Refer to the safety data sheet (SDS), available upon request.

Our data sheets are prepared with current knowledge and are subject to modifications.
