STANDARDS	STRAINS	CONDITIONS
Bact. EN 1276 Bact. EN 13697	<i>Staphylococcus aureus, Pseudomonas aeruginosa, Escherichia coli, Enterococcus hirae</i>	5 minutes at 20°C, in clean conditions
Fon. EN 1650 Fon. EN 13697	<i>Candida Albicans et Aspergillus brasiliensis</i>	15 minutes at 20°C, in clean conditions
Viru. EN 14476 Virus enveloppés	<i>Virus MVA (Virus de la Vaccine modifié)</i>	5 minutes at 20°C, in clean conditions

Application:

Single-dose air purifier pleasantly scented with mint for a feeling of freshness after application. Disinfects all washable surfaces and purifies the ambient air. Destroys bacteria and prevents the proliferation of molds, yeasts and fungi.

Effective on enveloped viruses such as Coronavirus and its variants, H1N1 etc.

Use in medical transport, medical practices, schools, retirement homes, hospitals, changing rooms, voting booths before and after elections, funeral homes, etc.

Allows to destroy nauseating odors in residential premises before a new rental, garbage rooms.

1 aerosol can treat up to 45 m³, or approximately 18m² of a standard room.

Do not overdose - Respect the treatment volume - Do not spray in a volume less than 1m³.

Directions for use:

Turn off any operating electrical appliance, any flame or any heat source (water heater, etc.). Close all windows, interior doors and cupboards. Remove food and cooking utensils. Do not treat in the presence of children and pets. Place the aerosol in the center of the room. Activate the diffuser until it remains blocked. The broadcast begins. Leave the room and close the door. The vaporization of the product will continue until the aerosol is completely empty. Leave to act for at least 15 minutes. After use, ventilate the room for at least 1 hour before you can re-enter it definitively.

SPECIAL VEHICLE INSTRUCTIONS

Clean the passenger compartment. Start the engine. Turn on the air conditioning, cold setting at maximum. Maximum ventilation. Open all vents. Put in air recycling mode. Close the windows. Move the passenger seat all the way back. Shake the aerosol and place it

on the floor, between the seat and the dashboard. Press the diffuser paddle until it clicks into place. Exit and close the vehicle. Allow the aerosol to diffuse completely then leave to act for 15 minutes. Open, stop the engine and ventilate the vehicle for at least 1 hour before re-entering it.
