	Nymphs, t0 and t+4 weeks	15 min	100%	Textile surface treatment
Human lice <i>Pediculus humanus capitis</i>	Adults, volume 0	-	80% in 18 hours	Textile surface treatment
Scabies mite <i>Sarcoptes scabiei</i>	Adults, volume 0	40 min	100%	Textile surface treatment

APPLICATION

Very effective acaricidal insecticide.
Active on parasites such as human lice, dust mites, ticks (adults and nymphs), fleas (adults, larvae, eggs), scabies mites present in your home.

Immediate effectiveness and up to 4 weeks after application depending on the insects targeted.

Used for treating textile surfaces such as fabrics, bed surrounds, carpets, etc.
Complementary treatment for allergies to domestic dust mites (asthma, rhinitis, conjunctivitis) and lice infestations to prevent the frequent phenomena of human recontamination through clothing or bedding.
Does not stain or damage treated surfaces.

PLACES OF USE

- Schools
- Hospitals
- Hotels
- Gîtes
- Reception centers
- Public places

INSTRUCTIONS FOR USE

Dose: 30 seconds per m² (i.e. 37.5g/m²).

Spray 30cm from the surface to be treated.
Leave to dry completely for at least 1 hour.
Ventilate the room for 1 hour. Vacuum to eliminate allergens.
Yield: 1 500mL aerosol can treat up to 8 m²
Frequency of use: 1 application per month.

PRECAUTIONS FOR USE

Keep cats away from treated areas. This biocidal product contains insecticidal substances that may cause severe adverse reactions in cats.
Test first on very white fabric.
